- Process and Product Quality
  - Pulp Manufacture Divisions
  - Standard-Specific Interest Group

## Optimize hog fuel efficiency with B&D Solutions

B&D Solutions a division of B&D Manufacturing is responding to bark hog mill industry demand for optimizing cogeneration fuel.

Partnering with Northern Enable, B&D Solutions can offer your company the advantages of their cost effective service to rebuild your bark hogmill here in Northern Ontario.

### Quality process extends and reduces

Northern Enable's expertise and historical rebuild data from participating mills in their Wear & Impact Program enables your operation to:

- extend grate/grizzly efficiency with their speciality hard-facing process; and
- reduce maintenance scheduling by utilizing their custom sequencing software that enables hammer installation with exact balancing.

B&D Manufacturing Portable Align Boring Machines ensure that the remanufactured rotor parts are aligned for accuracy.

Quality assurance professionals at B&D Solutions reassemble the entire unit promising customer satisfaction and a guaranteed delivery date.

It's time for you to reduce costs, time and headaches in this area of your bark hogmill operation. Call B&D Solutions today and get the details on how they can help.

## It's here - dynamic moisture control

Dynamic moisture control, on-line in real time, with OPC control is now possible with BDS MoistScan powered by CALLIDAN.

This progressive system will certainly help your operation:

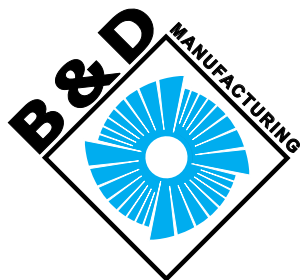

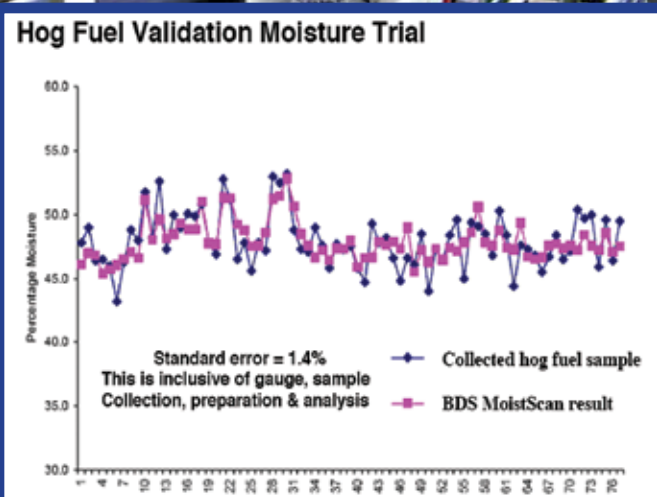

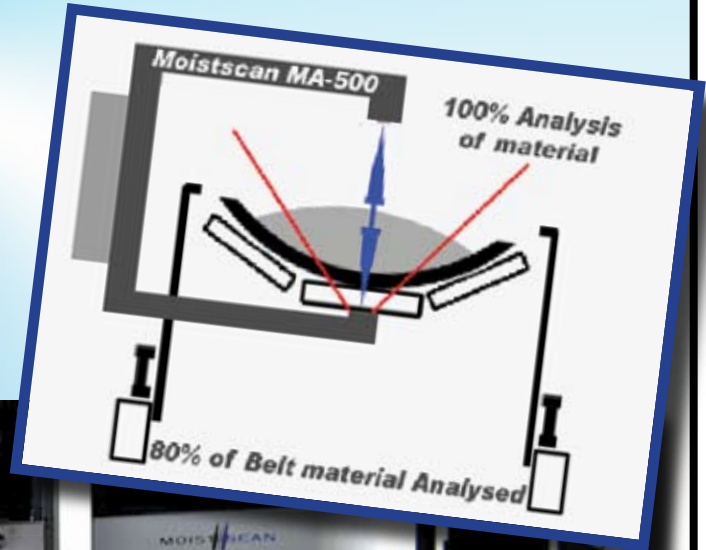

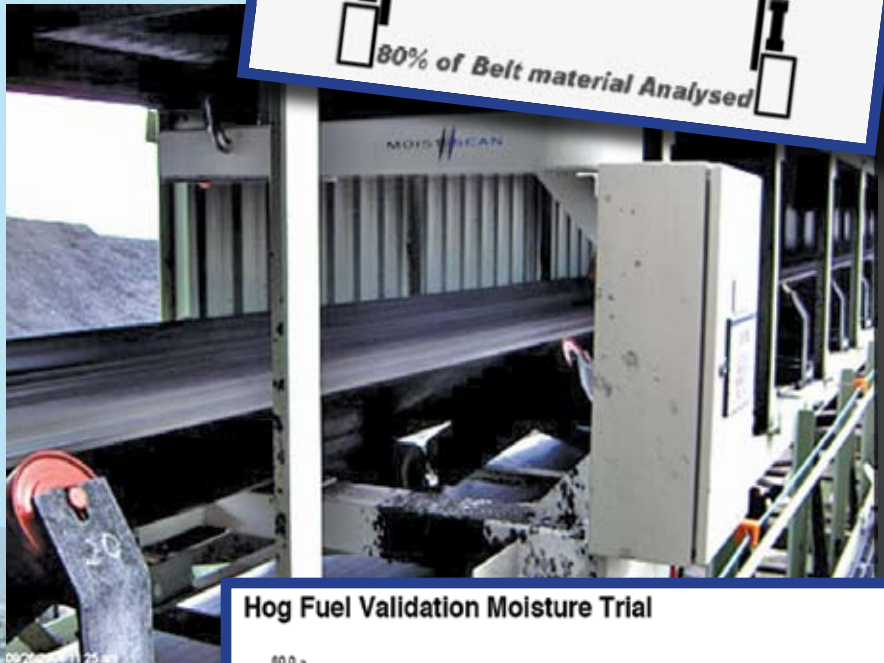

- increase production;
- lower costs; and
- increase profits.

Designed to suit any conveyor width, there is no limit on conveyor speed. With up to a 500 mm bed depth range, the instantaneous moisture readings can be detected from 0-80%.

Easy to install and commission with simple industry standard interfacing, you get the benefit of rapid real time results immediately. Manpower savings will be instantly realized as traditional sampling will be eliminated along with the preparation and analysis of samples.

Don't delay, contact B&D Solutions today to simplify your production operation.
