## Portable Align Boring services - your place or ours

When your equipment requires align boring the choice can't be more obvious than B&D - the original inventor and manufacturer of B&D Portable Align Boring Machines for over 25 years.

With the complete support of the entire B&D align boring equipment and accessories at their disposal, the B&D Align Boring Services Team is outfitted and capable of handling all of your align boring problems.

Equipped with automated bore welding capabilities, B&D's highly trained staff is available for emergency situations or for planned align boring maintenance at your site or in our shop.

Regardless of what your align boring needs are, call B&D's Align Boring Field Services Team. Your place or ours, we have the most reliable equipment on the market and a top-notch crew to apply it.

## Torque it up...with extreme accuracy

B&D's Field Services division is adding yet another much needed service to Northeastern Ontario.

With the recent acquisition of a TorcUP TU 27 hydraulic torque wrench B&D is amply equipped to tighten and loosen fasteners on your industrial equipment.

B&D's specially trained crew has safe and quiet control of the required ft/lbs for your application.

With a range from 2720 to 27,200 ft/lbs and an output accuracy of +/-3%, you can rest assured that your specifications can be met.

B&D has the man power and torque power to get your job done. Call to book the B&D team today.
